SUMMARY

Frontend Engineer with 4 years of experience delivering performant, user-focused web applications at scale. Specialized in React, Redux, and modern JavaScript/TypeScript, with experience integrating GraphQL APIs and optimizing frontend performance. Passionate about building scalable, responsive applications and exploring AI-assisted user experiences using modern GenAI workflows.

SKILLS

- **Frontend:** ReactJS, Redux, Redux Toolkit, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Styled Components, Bootstrap, Material UI, Responsive Design, Performance Optimization
- **Backend & API:** REST, GraphQL, Firebase (Auth, Firestore), Node.js (basic), MongoDB (basic)
- **GenAI (Working Knowledge):** Prompt Engineering, Retrieval-Augmented Generation (RAG) Concepts, LLM API Integration (OpenAI), AI-powered UI Workflows
- **Testing & Tools:** Jest, React Testing Library, Git, GitHub, Webpack, ESLint, Babel, Docker, VS Code

PROFESSIONAL EXPERIENCE

2022-Present TATA CONSULTANCY SERVICES

Adibatla, Hyderabad

Systems Engineer, Front End Engineer (2022-2025)

- Modernized and rewrote legacy applications from C#/.NET to a modern stack including **React, Redux, GraphQL, Node.js, and MongoDB**, improving maintainability and frontend performance.
- Implemented **Redux state management** for large-scale apps, ensuring data consistency and reducing bugs.
- Integrated **GraphQL APIs**, improving data fetching efficiency and reducing API calls by 40%.
- Optimized app **performance with lazy loading and code-splitting**, reducing initial page load by 1.5s.
- Wrote **unit tests (Jest + RTL)**, achieving >80% coverage and reducing regression issues in production.
- Delivered features used by **1,000+ internal users**, improving productivity across enterprise teams.

AI Assisted Development & GenAI UX (2025-Present)

- Contributed to an internal **AI-powered tool** designed to support the full SDLC, worked on **prompt engineering, model training and RAG setup** to generate accurate frontend UI code aligned with requirement.
- Built frontend UI for an internal **AI-powered developer SDLC tool**, enabling interaction with AI-generated documentation, code, and test outputs.

PROJECTS

2023-2025

PHARMA ASSIST

[Demo](#), [Git](#)

AI-assisted Website - ReactJS, Redux Toolkit, Tailwind CSS, Firebase Authentication, Firestore Database

- Frontend application providing AI-assisted pharmaceutical information through a clean, responsive interface.

2023-2024

AUM YOGA

[Demo](#), [Git](#)

Booking Website - ReactJS, Razorpay Payments, Firebase Authentication, Firestore Database, Tailwind CSS

- Built a responsive yoga class booking site with Firebase backend and Tailwind UI, featuring CTA-driven navigation and service highlights.

2022-2023

TRIGLI

[Demo](#), [Git](#)

Online Journal App - ReactJS, TailwindCSS, React Router DOM, Lucide React

- Minimal journaling app to log emotional triggers and glimmers, built with reusable components and responsive Bootstrap layout.

EDUCATION

2018-2022

RAJIV GANDHI UNIVERSITY OF KNOWLEDGE TECHNOLOGIES, NUZVID
Bachelor of Technology in Computer Science Engineering

8.4 CGPA

2016-2018

RAJIV GANDHI UNIVERSITY OF KNOWLEDGE TECHNOLOGIES, NUZVID
Pre University Course, MPC

8.2 CGPA
